SLIGHTLY TRY WAY.

He loved a maid.  
He loved her well;  
He loved her for  
Her frequent yell.  
He had a friend,  
Who loved with him.  
A more robust  
Style of him.  
He did not think  
His friend would care  
A penny for  
The maiden fair.  
And much less thought,  
The silly ally,  
The maid would care  
A word for him.  
Thus confident,  
He did not wait.  
But popped the question  
To her straight.  
"Indeed," says she,  
"I can't consent."  
You see, you're  
Slightly subsequent."

The people of Mt. Olivet will hereafter know what to get in out of the rain. The Weather Bureau has made preparations to have the approach of a storm or rain telegraphed from the nearest large city, and a man will stand on the courthouse steps and yell it out, and every body in Robertson county will hear it.

## IT'S SO IF IT'S IN THE LEDGER.

There was a large crowd out to the cemetery yesterday.

James W. Parker and his wife were arrested near Paris for detaining a young girl for immoral purposes. They lived in a wagon. Parker is an ex convict, and will likely get to go back and finish his trade.

Miss Stella Charles, sister in law of Professor Frost, formerly of this city, sang at the M. E. Church in Portsmouth yesterday. She was complimented very highly by a gentleman who heard her.

Conductor Goodman of the Chesapeake and Ohio Railroad, who killed Colonel H. C. Parsons at Clifton Forge, Va., has been convicted of the murder and sentenced to eighteen years imprisonment in the penitentiary.

John Countee, a well known colored character of this city, and who was until recently employed in one of the establishments down town, died Saturday at his home in the Fifth Ward and was buried yesterday afternoon.

The Enquirer Household Cooking Club passed down yesterday afternoon over the Chesapeake and Ohio Railroad on a special train, consisting of eight sleepers, a dining car and a baggage car, returning from their trip to Old Point Comfort.

The Bulletin's excursion to Oligonunk was a fiasco. The Bulletin's staff is composed of an officer in one of the churches here, one a very good member of another and one on the fence. And we are of the opinion that it was a fitting reuke to them. "Remember the Sabbath day to keep it holy," and the next time run your excursion on a week day and it'll be a success.

The many friends of Mr. Thomas Gullie will be sorry to learn of his illness at his home on East Third street. Several days ago he wore a pair of black half hose, and upon taking them off to change his leg was full of spots. He put on another pair of the same kind, and now the physicians say he has something like blood poisoning. We hope it will not result seriously.

There came a very near being a serious smashup Saturday evening in front of Martin Brothers' store. A young man, accompanied by two young ladies, drove up, got some soda water, and when the young man was in the store the horse took fright, wheeling around suddenly, and came very near throwing the two young ladies out. Fortunately no one was hurt, save the young man, who ran out and caught the horse, and in so doing received a severe wrench of the hand.

Miss Anna Clark, daughter of Mr. and Mrs. S. M. Clark, formerly of Maystick, now of West Simsbury, Conn., died at her home of consumption. Mr. and Mrs. Clark have lost two daughters within the past two weeks, and they surely have the sympathy of their friends in this community.

William Landers, a conductor on the Cincinnati Southern Railroad, while coupling cars at Moreland at 3 o'clock Saturday morning slipped and fell, the train making off one of his legs. He was taken to the hospital at Lexington where he died. He leaves a wife and one child. Mr. Landers was well known in this city, he having run on the K. C. Railroad for several years.

## A BOLD ONE

Was the Attempt to Wreck C. and O. Train No. 4.

Saturday night as C. and O. train No. 4 was on its way East, and when about one mile this side of Augusta, the engine struck an obstruction on the track.

On examination it was found to be a cross-tie, evidently placed there by some one with the intention of wrecking the train, we suppose, and secure a valuable haul from the passengers.

The only damage done was to the cow-catcher of the engine, which was slightly battered, and the shackle-bar gone.

This kind of business should be rigidly looked into, and the guilty parties, when caught, should be given what Marshall Boston got at Frankfort.

On that train Saturday night were some ten or twelve Mayville people, and beside these about 150 other passengers, and had the train been wrecked there's no telling how many lives would have been lost.

William Archdeacon now occupies one of the handsome new residences on Lee street of Mr. John A. Newell's.

TWO GAMES SATURDAY.

One at Germantown and the Other at Murphysville.

The "Never Sweets" a baseball club from this city, went to Germantown to play a game of ball Saturday, while another nine went to Murphysville to do likewise.

The Never Sweets had a good time—hunting for the ball. They were beaten by a fadder team of Germantown by a fadder team by the mere scratch of 45 to 3, and the Germantown didn't play ball either.

And the picked nine was even worse. The Murphysville secured 60 runs in nine innings and our boys got 2.

Well, this is old-time ball playing, and we must congratulate the boys on their good playing. They did well.

Coming home the Never Sweets met with quite an accident, and all came very near having to walk home after doing so much running. Their horses took fright and ran into a fence, pulling out several panels of the fence and bruising several of the boys considerably.

Frank Reeves and family, who were charged with the murder of Lander Coffey at Greenup, were discharged at the examining trial for lack of evidence.

NEVER READ THE PAPERS.

And Consequently They Didn't Know "Squire Beasley Was Dead."

Friday night about 12 o'clock a couple from Wolfe county, James Sillicon and Miss Sallie Rogers, were coming toward this city on the Mt. Sterling Turnpike, and when near a farmhouse about three miles the other side of Lewisburg the young lady got out of the buggy and the fellow drove on.

She stopped at the house and asked to stay over night and was accommodated.

While there she told the people that she had eloped from home with Sillicon to go to Aberdeen to get married by "Squire Beasley, and on the way down a quarrel arose, when the fellow stopped the buggy and ordered her to get out, which she did.

The next morning, however, Sillicon appeared at the farmhouse, and Sallie, upon seeing him, at once buried the hatchet, and he, with tears in his eyes, asked her pardon, which was granted, and the two got into the buggy and started back for Wolfe county, where they were married.

This only goes to show these people never take a paper, and how did they know "Squire Beasley was dead?"

## A FEW CHANGES

In the Next Delegation to Washington From This State.

The result thus far shows that there will be almost a complete change in the Kentucky Congressional delegation this fall.

Up to this time four new Congressmen out of eleven have been chosen by the Democrats.

They are as follows:

John K. Hendricks in the First, to succeed W. J. Stone.

Murray in the Third to succeed Goodnight.

John D. Clardy in the Second to succeed W. T. Ellis.

Rolla K. Hart in the Ninth to succeed Thomas H. Paynter.

Silas Adams, the Republican Congressman in the Eleventh, is almost certain of defeat at the hands of David O. Colson, the Filiville banker.

Joe Kendall in the Tenth will doubtless be the successor of W. M. Beckner, who was chosen after the death of the late Congressman Lisle.

Such a change is not certain of re-election, and neither is Breckinridge in the Seventh.

Congressman Montgomery was renominated in the Fourth after a bitter struggle.

McCreary in the Eighth is not sure of re-election, and Caruth in the Fifth is in the same fix.

It looks as if three, and maybe more, of the present Congressmen from this state will not be there after March 4th next.

Such a complete change never before occurred in Kentucky at one time as this one is going to be.

The Emma Warren Theater Co., which numbers twenty people, will be the best popular priced attraction that has been in the Washington Opera-house for some time. The orchestra is said to be a special feature, which consists of eight musicians, and as our people love good music it will be the means of drawing good houses. The company gives lady tickets for tonight, which can be reserved at Nelson's.

Rev. M. M. Riley of the Georgetown College has been elected President of a college at Greenville, S. C., at a better salary and will accept. Mr. Riley, for several years previous to going to Georgetown, was Pastor of the Baptist Church at Bowling Green.

The Democratic attitude toward American manufactures is the one and only cause of the present National distress. With the guaranteed continuance of a Protective Tariff, every mill and factory in the country would be running to its utmost capacity within thirty days. The money now hoarded in the banks would immediately pass into circulation for the purchase of raw material and the payment of wages. The purchasing power of the people being thus restored there would be a demand for the products of our mills, factories and farms, and money that is now idle would pass from hand to hand to the benefit of all. Idle money in the banks is withdrawn from circulation, and every dollar thus locked up is a dollar taken from the country's trading capacity. There was nothing of this sort in 1892.

The Washington Post observes that everybody is not unhappy over the prospect of the Wilson Bill, and that is a comfort anyhow. Our railroad people look forward to it with Nova Scotia, with consternation. Our coal and iron miners see in it a serious blow to their prosperity. The growers and manufacturers of sugar realize that it means their destruction. But the good people of Nova Scotia, at least, are happy, and they contemplate the future with radiant delight. Here is what The Journal and Pictou News has to say about it:

"Two of three articles—coal, iron ore, lumber—of which Nova Scotia has a vast supply, with which her future is closely bound up, have been put on the free list by the United States Congress. The coal owners of the United States made strenuous efforts to have the duty on bituminous coal retained, but their efforts were unavailing, and every amendment looking to the imposition of a duty, more or less, was voted down. The action of Congress, if carried in by the Senate, will have a tremendous influence on Nova Scotia's future. The development and expansion of the coal industry means more for our province than can, perhaps, at a glance be realized. It means work for thousands of our people and a big revenue for the Provincial Treasury. In short, it means good times all around for Nova Scotia, for prosperity in mining means a prosperity whose felt influences are general. Next in importance to coal comes iron ore. The admission of ore free into the United States means the development of a branch of mining hitherto neglected or carried out on a comparatively limited scale. There are vast deposits of all kinds of ore only awaiting capital

and a market for their development. That market is now all but assured us, and with the prospects of a ready market, will, no doubt, come capital to set the wheels in motion."

So if our own coal and iron industries languish, if millions of our people are reduced to idleness and want, we have at least the satisfaction of knowing that property and happiness have been conferred on Canada. We have only to cultivate a truly philosophical frame of mind and we may yet suffer with contentment.

The report from McLean county indicates that there will be 30 per cent. of a tobacco crop.

There were about 75 tickets sold at the L. and N. Depot yesterday to people going to Parks Hill Campmeeting.

The cannon-ball on the Cincinnati Southern Railroad was wrecked Saturday night near South Lexington. No body killed.

Mrs. L. B. Ford, nee Miss Lulu Engle, sister of Mrs. George H. Martin, has a fine son. Mrs. Ford has a good many acquaintances in this city.

The best business block of Lawrenceburg was destroyed by fire Saturday morning, entailing a loss of \$40,000, covered by \$17,500 insurance.

Everett Brightman can raise something else besides geese on Cracker's Neck. There was a fine daughter arrived at his house Friday night, and of course Mr. Brightman is exceedingly happy.

## THE POPGUNS.

The Republicans and Democrats Burst Them.

Amended Resolutions Offered by Senator Murphy Adopted in the Senate.

The immediate result of this action was the passage and ratification of the Senatorial Committee—Senator Harris Will Attempt to Franchise the Nation.

WASHINGTON, Aug. 20.—The senate by its action Saturday will give the public official notice that they need not fear any more tariff legislation at this session. Although everybody knows that the popgun bills are dead, yet the adoption of the amended resolutions offered by Senator Murphy Friday puts the official stamp to this announcement and will thus assure some of the timid people who think that perhaps by some chance one of them may slip through that this can not be done.

The action of the republican conference Friday in endorsing the Murphy resolution with a few slight modifications settled the question as to whether it should be adopted. The immediate result of this action was the packing up and departure of at least a half dozen senators who have been lingering here for their presence might be needed. On Monday others will follow their example and the quorum of the senate will be gone until December.

Senator Harris, however, is one of the very few senators who claim that something must be done with the popguns before an adjournment. He states that the latter can not be had until next month and that he alone will hold congress here.

When Senator Harris' resolution for the appointment of Senator White, of California, to the vacancy on the senate committee was laid before the senate at 12:15 Saturday, Mr. Manderson said that he would be objecting to the resolution and explained that the opposition Friday contained no reflection on the senator from California, Mr. White. Mr. Hill concurred with Mr. Manderson and expressed the hope that the resolution would be passed. It was then adopted without division.

## THE GEORGIA PACIFIC

Sold under the Hammer for the Amount of \$1,000,000.

ATLANTA, Ga., Aug. 20.—The Georgia Pacific railway was sold under foreclosure. It was bid in by C. H. Foster for \$500,000. He announced he had purchased it for the Southern Railway Co. Morgan & Drexel, organizers. This was the amount of the money for the purchase of the road. The road is 633 miles long, and runs from Atlanta to the Mississippi river. President Spencer is here. He has announced no change in the management of the line as yet. This is another link in the big chain of roads for an immense southern system.

ATLANTA, Ill., Aug. 20.—A schedule of the liabilities and assets of P. H. Graves, the Seneca merchant, shows liabilities of \$100,000 and assets of \$100,000. Among the heaviest creditors are half a dozen Illinois banks and grain dealers. Mr. Graves owns farmers for 75,000 bushels of corn and 35,000 bushels of oats, and the list includes nearly every farmer within ten miles of Seneca.

**Ship Canal Data.**  
CINCINNATI, Aug. 20.—A large delegation of state officials, including the state board of public works, and a party of newspaper men, devoted Saturday to an inspection of the Miami & Erie canal from Cincinnati to Dayton, with a view to securing data on the feasibility of constructing the proposed ship canal.

**Chicken Thief Shot.**  
PEABODY, Vt., Aug. 20.—A man residing on the Seventeenth grade on the B. & O. railroad saw two men stealing his chickens a few nights ago, and shot at them. They ran away and next morning were tracked by blood for two miles. A man in that vicinity has been missing since, and his wife is almost crazy, fearing it was her husband who was shot.

**Forests Afflame.**  
VANCOUVER, B. C., Aug. 20.—Disasterous forest fires have again broken out in the Slogam mining district. A fierce gale swept down the canons and fanned the smoldering embers into raging fires. The buildings of the No. 1 mine and the New Dead Man mines were in the path of the flames and were destroyed.

**A \$50,000 Branch of Famine Soil.**  
MT. AIR, N. Y., Aug. 20.—Miss Amelia Geiger, of Hebron, O., has brought suit against Alexander C. Payne for \$50,000 for breach of promise. Payne, a widower, is a wealthy note broker and has been a resident of this county for 25 years. There is a large farm on both sides and a trunk full of love letters.

**Large Fish Caught.**

## BECOMES A LAW.

The River and Harbor Bill, Without the President's Signature.

WASHINGTON, Aug. 20.—The river and harbor appropriation bill as sent to the president, and which became a law Saturday without his approval, carries an appropriation of \$11,475,100.

The following are some of the chief items as nearly as can be ascertained, though some changes were made in conference.

Harbor improvements:  
Ashtabula, O., \$75,000; Cleveland, O., \$50,000; Sandusky, O., \$30,000; Toledo, Ohio, \$20,000; Muskegon, Mich., \$20,000; Conneaut, O., \$40,000; Michigan City, Ind., \$20,000; Waukegan, Ill., \$20,000; Frankfort, Mich., \$40,000; Grand Marais, Mich., \$20,000; Superior, Wis., \$20,000; Sand Beach, Mich., \$20,000; St. Joseph, Mich., \$20,000; South Haven, Mich., \$20,000; Superior, Wis., \$20,000; St. Louis Bay, Wis., \$20,000; Duluth, Minn., \$75,000; Mississippi between Chicago, St. Paul, Minneapolis and Omaha harbor, \$20,000; Duluth, Minn., \$75,000; and the Washington avenue bridge at Minneapolis, \$20,000; and the work removed from the continuing contract system.

Canals—A provision was adopted authorizing the president to appoint a board to determine the most feasible route for the connecting line between the Chesapeake and Delaware canal, also for the survey of the Miami and Erie canal, and such other streams as may be deemed suitable for connecting the waters of Lake Erie with the Ohio river, for the purpose of a ship canal.

## DISASTROUS WRECK.

Oil Cars Burned and Several of Them Explode With Great Force.

HUPPES, N. Y., Aug. 20.—A freight train on the New York Central railroad, consisting of sixty-eight cars, half of which were oil tanks, broke in two at 2 o'clock Saturday morning in Cheesecake, about a mile from the city line. Two parts of the train collided with great force, and one of the oil cars exploded, the oil having been ignited from a brakeman's lantern. The other oil cars caught fire in rapid succession and there was a series of tremendous explosions. One tank was blown fully 1,000 feet. The train crew set about rescuing the box cars, but succeeded in saving only two. The others, loaded with merchandise, being burned.

Theodore J. Snyder, of East Syracuse, was terribly burned, but may recover. An oil tank was blown over a brick house. The house caught fire and was destroyed. Snyder was on top of a box car, the first one to explode. He was enveloped in the burning oil, and before he was rescued he had been burned. All the cars of the central's tracks were blocked and all the telegraph wires thrown down. The central's loss will be fully \$50,000.

## GRASSHOPPERS.

They Do Immense Damage to Crops in West Tennessee.

LEWISTOWN, Tenn., Aug. 20.—Fine rains throughout June and July brought corn and cotton into the best condition known in West Tennessee in years. But now legions of grasshoppers are appearing in some localities in great numbers, completely devastating the fields. Their voracity is not satisfied until they have devoured even the cob and stalk of young corn and have left the corn stubs and the foliage, squares and barks. Farmers here in Carroll and Weckley counties are sending out their men to drive the grasshoppers into straw pits and burning them. One man, in his desperation, drove a herd of the pests into his barn and the effort to save his growing crops. These riding Aerydians are to be found in every stage of development, from the wingless baby hopper to the adult and a large swarming bird, all ravaging the fields together. Unless they are successfully met soon by a severe frost, the crops of the West Tennessee counties will be ruined.

## Wants Guardians.

VALPARAISO, Ind., Aug. 20.—Lewis H. Gorton, a wealthy citizen of Bristol, is under heavy bond for assault with intent to murder. He has now issued a notice to the public praying for the appointment of twelve guardians to take charge of his property. He said that by the result of a strange hallucination his past life has not been what it should be, but that he would be glad to have the management of his business and domestic affairs, to make himself a useful member of society.

**A Farmer Crushes Another's Skull.**  
LEBANON, Ind., Aug. 20.—John Besson, son of a well to do farmer, living eight miles west of this city, struck Hiram McDonald over the head with a rock Saturday morning, inflicting injuries from which he died, after seven hours' intense suffering.

**Charles Patton Shot and Probably Fatally Wounded.**  
Charles Patton in the same place. Some time ago Patton was arrested for hitting Sutton with a rock. Since then quarrels have been frequent and Saturday's tragedy was not unexpected.

**Prof. Johnson Beaten and Robbed.**  
ST. LOUIS, Aug. 20.—L. M. Johnson, a graduate of Union college, Schenectady, N. Y., and a professor at Washburn college, located at Cadiz, Ind., was robbed and badly beaten by a gang of river thieves near the mouth of the Mississippi. The thieves overpowered him as he slept in his little boat, and, after robbing him of his jewelry and \$15 in cash, pounded him into insensibility.

**Robbed of Three Hundred Dollars.**  
AMELIA, O., Aug. 20.—A mysterious robbery occurred while the Enquirer Household club was en route to Old Point Comfort. Miss Kate Smith, of the club, was robbed of \$300, which was concealed in a little sack suspended from about her neck. The thief got into the car in a mystery.

Mary Chalk, the sixteen-year-old Alexandria girl who wanted to marry a sixty-year-old codger, has been persuaded that she had rather remain in the convent, where she was placed by her father, than to become the old man's darling.

A snake measuring five feet two inches in length had the temerity to intrude himself into the very center of the capital of Kentucky a few days since. A large crowd of men and boys were attracted by its presence and a shotgun was held in readiness to dispatch the horrid reptile. A snake appearing in the center of a city is evidence of grass growing in the streets and fodder in the back yard of the capital building.

TESTIMONIALS. LEXINGTON, KY., May 29th, 1904.

It gives me pleasure to say that I am well acquainted with the character and work of Mrs. A. B. Bourne and Miss Alice Lloyd, and that I think the Madison Female Institute very fortunate in securing their services in its management. They are both ladies of culture, executive ability and of skill in the art of teaching. No parents in Kentucky or elsewhere need hesitate to place daughters under their care or instruction.

LEXINGTON, KY., June 15th, 1904.

To whom it may concern: Having learned that my friends Mrs. Anna B. Bourne and Miss Alice Lloyd have engaged to take charge of Madison Female Institute, it gives me pleasure to say that they are in my opinion in every way qualified for the responsible position. These ladies have had fine opportunities of learning the best methods of teaching in some of the most celebrated seminaries in the land. This combined with rare ability and some ten or twelve years experience in the schoolroom, gives assurance of success in their undertaking. Mrs. Bourne and Miss Lloyd as Associate Principals will be aided by a corps of able teachers; and from my knowledge of their ability, energy and high character, I am confident they will do good service in the cause of Christian education. In this expectation I commend them to the enterprise to the patronage of the public.

Many who have noticed the beautifully lighted stores of Messrs. W. C. Miner, J. H. and J. C. Peor have wondered what new style electric lamp they were using. The fact is, however, that the light is made from plain every day gas with the Welshbach incandescent burner and it can be fitted to any gas fixture in five minutes. The Welshbach consumes about half as much gas as the ordinary tin burner and gives nearly four times as much light and no flickering—absolutely a steady soft, white light that is grateful to the most sensitive eye. For prices and full particulars call on Ballenger the Jeweler.

The success of Mrs. Annie M. Beam, of McKeesport, Pennsylvania, in the treatment of diarrhea in her children will undoubtedly be of interest to many mothers. She says: "I spent several weeks in Johns-ton, Pa., after the great flood, on account of my husband being employed there. We had several children with us, two of whom took the diarrhoea very badly. I got some of Chamberlain's Colic, Cholera and Diarrhoea Remedy from Rev. Mr. Chapman. It cured both of them. I knew of several other cases where it was equally successful. I think I cannot be excelled and cheerfully recommend it." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Druggist.

Mr. Thomas Batts, editor of the Graphic, Texarkana, Arkansas, has found what he believes to be the best remedy in existence for the flux. His experience is well worth remembering. He says: "Last summer I had a very severe attack of flux. I tried almost every known remedy, none giving relief. Chamberlain's Colic, Cholera and Diarrhoea Remedy was recommended to me. I purchased a bottle and received almost immediate relief. I continued to use the medicine and was entirely cured. I take pleasure in recommending this remedy to any person suffering with such a disease, as in my opinion it is the best medicine in existence." Twenty-five and 50 cent bottles for sale by Theo. C. Power, Druggist.
